

The Perfect Human – Questionnaire

Welcome to PHO! The Perfect Human Organisation. We provide you with your perfect partner, child or friend. Please fill out the following questionnaire. Special options (e.g. Heterochromia, specific variety of hair colour, ...) are available after consultation.

This optionally as a Video Massage (and maybe better text); as a very over the top version in theory it might be cool to accompany each decision with a video clip explaining the concept or statistics of success, ... What I would find very cool is if we could make use of our international group and find laws/statistics ect. From different countries and have them presented by people from that country – possibly in their mother tongue with subtitles. But that might be very time expensive and complicated...
